To Whom It May Concern,   Date: 14 January,2024

I am pleased to provide this letter of recommendation for Rasal Ahmad, a highly accomplished individual who has recently completed his B.Sc in Computer Science and Engineering from Bandarban University. During his academic journey, I had the privilege of supervising his final-year project on the development of a University Result Management System application.

Ahmad has consistently demonstrated a high level of dedication, expertise, and passion for his field of study. His proficiency in web engineering, database management, software engineering, and mastery of data structures and algorithms were evident throughout the completion of his degree. Under my guidance, he exhibited not only technical prowess but also a deep understanding of project management and effective teamwork.

As a co-founder of Hill Tracts Tech, a startup specializing in smart tourism in the hill tracts area of Bangladesh, Ahmad has showcased exceptional entrepreneurial skills and leadership qualities. His commitment to technological innovation and its practical applications in the tourism sector has played a pivotal role in the success and growth of the company.

I would like to highlight Ahmad's professional experience as a React Js Developer at Fyntune, an Indian software company, where he worked remotely for two years. His role as a React Js Developer showcased his ability to excel in a professional setting, meeting deadlines, adapting to new challenges, and contributing significantly to the development process.

Beyond his academic and professional achievements, Ahmad possesses strong communication and interpersonal skills. His ability to work collaboratively within a team, coupled with his exemplary problem-solving skills, makes him a valuable asset in any given environment.

I am confident that Rasal Ahmad's academic accomplishments, practical experience, and entrepreneurial spirit make him an excellent candidate for admission to your higher education program. I believe he will not only meet but exceed your expectations and contribute positively to your academic community.
